

Supplied only to owners of a valid firearm permit.

HAENEL ▶ JAEGER TEN

Rugged build: Durable, **straight synthetic stock** with rubber butt pad.

Fast cycling: **Bolt-action** with three locking lugs and 60-degree bolt lift.

Suppressor ready: **Muzzle thread (M15x1)** with thread protector.

Secure handling: **Two-position safety** acting directly on the trigger sear. The rifle can be opened even when the safety is engaged.

Direct mounting: **Picatinny rail milled in** – repeatable and cost-effective scope mounting without an additional base.

Capacity: **4+1-round plug-in magazine.**

Cold-hammered precision barrel.

ROBUST PRECISION

Lighter and more agile, the updated Jaeger 10 is now called the Jaeger TEN. Excellent on the range and rugged in the field. It has everything a bolt-action rifle needs – plus numerous detail improvements for our hard-working hunting companion.
