

The precision rifle is available as a long basic version and now as the LR/ONE Short. Thanks to a folding buttstock and short barrel, the compact version impresses with its minimal pack size.

Supplied only to owners of a valid firearm permit.

Telescopic stock with adjustable cheek rest.

Classic bolt action with a 60-degree bolt throw, **three-position safety**, and cocking indicator.

Handguard with milled NAR rail and M-LOK.

Cold hammer forged match barrel: High precision and long durability.

M15x1mm thread for suppressor or muzzle brake.

Height-adjustable shoulder piece.

5-round plug-in magazine – 10-round magazine optional.

ARCA support: Universally compatible with tripods, clamps and mounts.

Barricade stop
